

Exhibition in JAPAN SHOP 2017

Lumiotec Inc. makes an exhibition in “JAPAN SHOP 2017” at Tokyo Big Sight.

This exhibition, held as one of the “Shop, Office, House & Urban Innovation Exhibition Japan”, is the world’s leading trade show for shop systems and fixturing showcases and will gather many visitors from all over the world.

OLED, which is very thin, light and has soft lighting, will enable us to make innovative designs of shop and facility. We believe this market, for shop and facility, will be a quite important. Through this exhibition, we would like to announce its potential widely to the customers.

We also plan to exhibit a latest prototype of “Flexible OLED” in this exhibition.

Please watch and touch our OLED lighting, and you may get some useful information or innovative idea. We are looking forward to your visit.

JAPAN SHOP 2017
