

Exhibition in IMAGE SENSING SHOW 2017

Lumiotec Inc. makes an exhibition in “IMAGE SENSING SHOW 2017” at PACIFICO YOKOHAMA.

This exhibition, for the 32nd time this year together with the “Precision Measurement Fair” featuring measurement which supports Japanese world-class precision processing technology and will gather many visitors from all over the world.

OLED, which is very thin, light and has diffused lighting, will enable us to make innovative designs of lighting source. We believe this market, for inspection and image processing, will be a quite important. Through this exhibition, we would like to announce its potential widely to the customers.

We also plan to exhibit a latest prototype of “Flexible OLED” in this exhibition.

Please watch and touch our OLED lighting, and you may get some useful information or innovative idea.

We are looking forward to your visit.

IMAGE SENSING SHOW 2017
